

COOL TF SERIES

TOUCH FREE ELECTRONIC GLASS FILLER FAUCET

SPECIFICATIONS

Touch free electronic glass or bottle filler faucet. Activated by IR sensor. For cold or premixed water. Available with Battery Box for 6 x 1.5V AA batteries or a 9V transformer. Filter included. Long reach rotational spout on specific models. Lead free waterways. Retrofit installation compatibility.

OPERATION

When users place a hand in front of the sensor and positions a glass or bottle under the spout with the other hand, the touch free glass filler faucet will automatically activate. The flow will stop as soon as the user removes their hand from the sensor range.

APPLICATION

Deck mounted touch free glass or bottle-filler is ideal for drinking fountains, coolers and water stations. Cool touch free glass filler has been designed by Stern for bars, restaurants and other commercial kitchens. Enables you to quickly and conveniently fill glasses or bottles with water and configure your own water filling stations.
