CSABA FOAM SOAP DISPENSER

SPECIFICATIONS

Touch-free electronic foam soap dispenser for deck-mounted installations. Activated by infrared sensor. Chrome plated body, other finishes available. 1 liter soap bottle and bottle support included. Powered by a 12V transformer. Remote installation option: extension cable and longer piping. The following functions can be customized by an optional remote control: foam quantity, air quantity(foam-ability), soap tank refill, temporary off and reset to factory settings.

OPERATION

Touch-free electronic foam soap dispenser operated by infrared sensor. The foam dispenser automatically activates when users place their hands within sensor range, providing a measured amount of foam (customizable by optional remote control). If the user removes hands from within sensor range before the full amount is dispensed, the foam dispenser immediately deactivates the flow.

APPLICATION

Electronic touch free foam soap dispenser with drip-less automatic shutoff, Trendy foam soap dispenser helps washroom organization and cleanliness. Combined with Trendy touch-free electronic faucet, it creates a germ-free automated environment. Ideal for transportation hubs, train and bus stations and highway rest stops.
