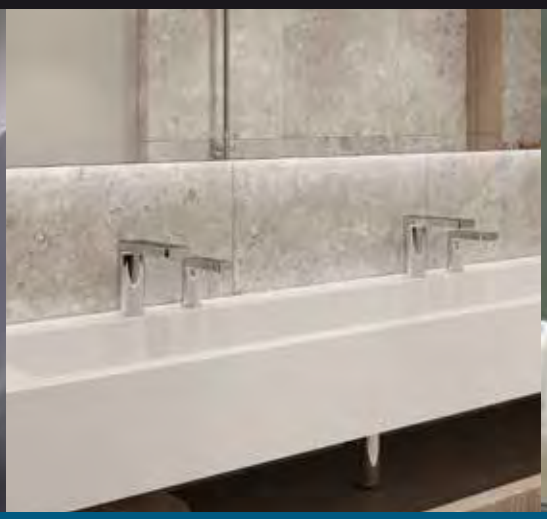
STERN



TOUCHLESS AUTOMATED ENVIRONMENT

COMMERCIAL & HOSPITALITY

DISCOVER STERN'S TOUCHLESS WC CUBICLES

ENHANCE RESTROOM EXPERIENCE WITH **TOUCHLESS WC CUBICLES** AND OCCUPANCY INDICATORS

- Optimizing Surface Hygiene and Minimizing the Risk of Cross Contamination
- Quick & Easy Installation
- Intuitive and Simple Use
- Safe and Reliable
- Minimal Maintenance and Failure-Free

MINIMIZE CONTACT WITH SURFACES AS MUCH AS POSSIBLE

Since 1989, Stern - one of the pioneers in touchless sanitary products for public toilets – has been producing touchless faucets, soap dispensers, flush valves, and hand dryers. But what about the contact applied to open the door of the WC cubicles?

Now you can ensure optimal surface hygiene and minimize the risk of cross-contamination, using Stern's touchless bathroom cubicles.

For more details about Stern's touchless cubicles please contact:
info@sternfaucets.com

WHY STERN?

Stern blends cutting-edge technological innovation, foresight, ease of use, and impeccable style, all in a single package. A world leader in the sanitary market for nearly 35 years, Stern develops and manufactures touchless faucets, automatic soap dispensers, flush valves, shower controls, and a multitude of related accessories in its production facilities in Israel and the US.

Equipped with advanced technologies and machines run by a talented team of over 300 people, Stern creates an extensive product line for both commercial and hospitality installations. Every product at Stern is visionally conceived, practically engineered, and successfully launched to improve the user experience around the globe.

By marrying our market intuition with our technological know-how, we create electronic products that effectively and efficiently answer global needs in line with international standards and expectations. We remain wholeheartedly committed to green building and water-efficiency to help minimize the use of water and energy.

And as we produce everything in-house, we are able to adjust, combine, upgrade and resize to your hearts' desire, keeping Stern at the very forefront of world technology and design.

STERN LEADS THE WAY

The Leadership in Energy and Environmental Design (LEED) is a certification developed by the USBCG (United States Green Building Council) – an organization dedicated to environmentally conscious construction. The LEED certification encourages sustainable building practices and promotes environmental preservation. Among the key issues measured by the organization are water and energy efficiency.

The certification is based on a rating system, awarded for specific percentage of water usage reduction, as listed in the LEED Rating System . The USBCG applies its LEED certification points system to a wide variety of construction projects: commercial buildings, office buildings, schools, hospitals, hotels, and more.

With water conservation as one of our main goals, Stern has developed a line of products with extremely high water efficiency. Our products provide a minimum of 30% water reduction and up to 87% water reduction. Stern products are the best way for any construction project to achieve the highest score in the water efficiency category of the LEED certificate.

Stern products and water usage reduction

Commercial Fixtures, Fittings, and Appliances	Baseline	Stern's Best Solution	Stern's Reduction
Flush valves for toilets	1.6 gpf (6.0 lpf)	1.1 gpf (4.18 lpf) single flush 0.8 gpf (3.04 lpf) average dual flush	31%
Flush valves for urinals	1.0 gpf (3.8 lpf)	0.125 gpf (0.5 lpf)	87%
Public Lavatory (restroom) faucets	0.5 gpm at 60 psi (1.9 lpm at 415 kPa)	0.35 gpm (1.33 lpm) at 50 psi	30%
Shower heads	2.5 gpm at 80 psi (9.5 lpm at 550 kPa)	1.06 gpm (4.0 lpm) at 50 psi	58%

Legend: lpf – liters per flush, gpf – gallons per flush, lpm – liters per minute, gpm - gallons per minute, psi - pounds per square inch, kPa - kilopascal

ALWAYS COMMITTED TO GREEN BUILDING AND WATER-EFFICIENT PRODUCTS

WHAT'S NEW?

SWAR New Options

The newest version of SWAR has been fitted with a concealed screen for broadcasting news and advertising, to be viewed while users wash, soap and dry their hands in your commercial washroom. The lockable mirror conceals the screen completely and the tablet is only visible when needed, creating a sophisticated approach to elegant advertising.

Page 87

Boreal Faucet & Soap Dispenser

Water & soap come together, perfectly matched, with this stellar looking pair. Sharp contours and straight lines infuse this minimalistic square design with a futuristic charm.

Page 14, 54

Csaba 2 in 1

Csaba 2-in-1, a touch-free deck-mounted electronic faucet and soap dispenser duo in a single unit, is ideal for retrofit projects where drilling a new basin opening is not possible.

Page 6

Recessed Duo

The Recessed Mounted Duo is our concealed soap-water modular system in a stainless-steel box for integration inside the wall, concealed inside the wall and behind a mirror or panel for the cleanest and most minimalistic design.

Page 90

Stern Trio

Complete solution for hand washing and drying! Eliminate those messy, slippery floors, with Stern's all-in-one handwashing solution for either deck or wall-mounted designs.

Page 39

Proprietary Soap Adaptor kits

Fully committed to your soap supplier but want to enjoy the ease, comfort and sustainability offered by Stern's touch-free soap dispensers? Fret no more! We have the ultimate solution for you to continue using your proprietary soap: Stern's Proprietary Soap Adaptors!

Page 107

Easy Refills

Lotus Top fill 2 liters container is easy to refill with your choice of hand soap. Our new touch free deck mounted soap dispenser's body is made of 100% chrome plated brass. Including the smart cap that allows to refill from the top.

Page 50

Smartbox

Our Smartbox touch-free electronic soap dispenser or hand sanitizer dispenser for wall-mounted installations, is ideal for refurbishment projects.

Page 79

Cool TF

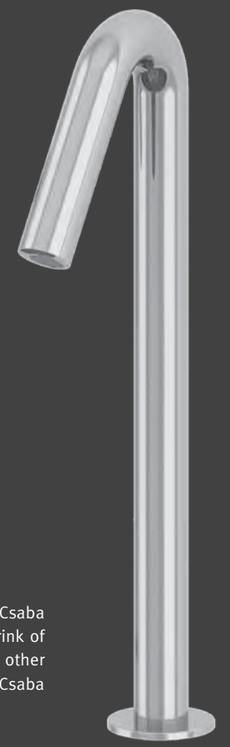
Long and slender, Cool TF is perfectly curved to serve. Ideal for filling bottles in public washrooms to help conserve water while limiting the spread of germs and bacteria.

Page 23

Csaba Petite Set

Petite and just the right size, our Csaba Petit Set is the ideal choice for spaces that require elegant subtlety and an air of refined sophistication.

Page 7, 47



Csaba Plus

Take your spirits higher with our newest Csaba model, Csaba Plus, for a taller, loftier drink of water. About 1.5 times longer than the other Csaba counter top washbasin models, Csaba Plus raises handwashing to new heights.

Page 7

Before Choosing A New Faucet,

THINK FINISH FIRST

New technology and an increasing appreciation for purposeful design in public bathrooms have made the faucet an important feature in bathroom decor.

STAINLESS STEEL AISI 316

Stainless steel faucets do not need finishing. The material itself is the finish and it offers corrosion resistance, formability, strength, and easy maintenance. Combining elegant design with vandal resistant features, now more resilient than ever, our Stainless Steel AISI 316 series is long lasting even under the harshest conditions.

POLISHED CHROME

Resistant to rust and corrosion, chrome is both cost-effective and easy to clean.

The graceful chrome-plated finish is created through electroplating, which applies a liquid metal coating through electro deposition. As the deposited metal fuses to the base material, the refined and durable finish created is Stern's collection default.

MATT BLACK

Powder coating is a finishing process in which a coating is applied electrostatically to a surface as a dry powder before heat is used to finalize the coating. The powder forms chemical bonds in the process, creating a flexible, durable finish that is highly resistant to corrosion, flaking, and scratching.

Exceptionally versatile and easy to clean, powder coating does not show dirt, water spots, or fingerprints.

PVD COATING

PVD coating (physical vapor deposition) is the process in which a solid material is vaporized in a vacuum and deposited onto the surface of the fixture. These compound materials are deposited atom by atom, forming a thin, bonded, metal surface layer that greatly improves appearance and durability.

Selected products are available in a variety of special finishes:

PVD BRUSHED NICKEL

Popular for its "stainless steel" appearance, PVD Brushed Nickel creates a sophisticated and cool look that hides fingerprints and water spots.

PVD COPPER

A velvety effect that goes well with contemporary and industrial styles.

PVD GUN METAL

Inspired by rifle barrels with a sheen that's not quite matte and not quite shiny, gunmetal faucets add an interesting touch to any design, particularly when paired with industrial elements.

PVD ANTIQUE BRONZE

Dramatic and striking, antique bronze lifts the ambiance with a touch of texture.

CSABA 2-IN-1 SERIES

Electronic lavatory faucet and soap dispenser operated by IR sensor

Touch-free deck-mounted electronic faucet and soap dispenser in a single unit that are activated by concealed sensors built into the spouts.

Ultimate retrofit option as it only requires a single hole in the deck for a touch free faucet and soap dispenser.

Available with soap level indicator for ease of maintenance.

SOAP, WATER & AIR FRAME SETS

Iron mounting frame set.

Touch free soap dispenser, touch free faucet and hi-speed hand dryer for public bathroom use.

Operated by IR sensor. The system includes mounting support for the washbasin, faucet, soap dispenser and hand dryer, available with full brass body or AISI316 material.

Advantages:

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- Minimizes hand washing drips to floors and counters
- Provides a complete electronic soap, water and air experience as well as the complete installation package
- Contains 9 mm holes for use in wood frame construction
- Galvanized leg support, adjustable height up to 7.8” (200 mm)
- Powder coated, blue color
- Retractable leg supports to 1.96” (50 mm)
- Rotating foot plate
- Supplied with all the needed fixing accesories
- Protection cover that protects the service opening against moisture and dirt and can be cut to length
- Frame with C profile 1.57” (40/40 mm)
- Frame height from 44.8 x 52.7” (1140 mm to 1340 mm)
- Modular. Option to order with soap dispenser, faucet or hand dryer only or any combination

LOTUS TOPFILL E

An innovative deck-mounted soap dispenser for all types of liquid soap

The main features and benefits of the Lotus Top Fill:

- A 100% chrome-plated brass structure
- Delivers liquid/foam soap
- An enlarged 2 liter tank
- Peristaltic pump preventing back-flow and clogging
- A smart cap that enables easy filling from the top
- A soap level indicator LED that alerts you if the container is full, empty, and when you've reached maximum fill.
- A variety of finishes: chrome, PVD brushed nickel, and matte black
- Matching touch-free faucet available
- Soap dosage and sensor range adjustable by remote control

MULTIFEED KITS

Installation kit for more efficient maintenance of multiple soap dispensers. Saves time and money, can supply up to six soap dispensers from one large capacity 1.6 gallon (6L) tank. Ideal for high traffic areas with multiple hand washing stations in high traffic restrooms. Enables productive refill of multiple soap dispensers through a single top fill unit above deck and an LED indicator that lets maintenance staff know when soap levels are low. Suitable for any foam or liquid soap with the recommended viscosity.

Features:

- Allows multiple soap dispensers installation (up to six (6) dispensers) with a single 1.6 US gallon (6L) tank
- Stainless Steel tank support or lockable underbasin cabinet

Options:

- Anti-theft top filling brass mechanism for easy refill from the counter top
- Soap level indicator
- Below deck filling mechanism
- **NEW:** Plywood HPL (High Pressure Laminate) lockable cabinet with level indicator window. White panel and oak style frame for 1.6 Gallon (6L) soap tank with option to house the 33.8 FL OZ (1L) soap bottle as necessary. Hides unsightly pipes and connectors from the view of users.

Advantages:

- Drastically reduces soap consumption
- Cross contamination protection - no physical contact
- Maximized savings - can be used with any non-proprietary soap
- Easy installation
- Fast and simple refill with optional LED indication of soap level
- Highly durable - with optional vandal-resistant top-filling mechanism

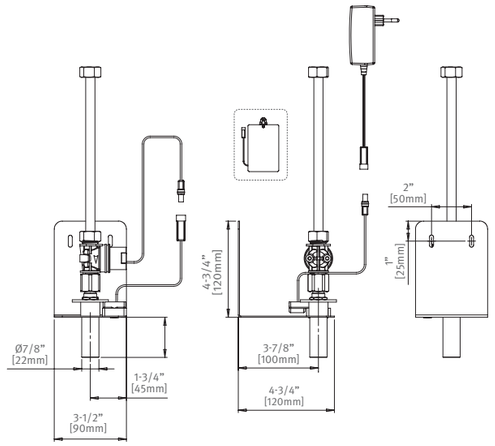
BTM FAUCET

Electronic wall-mounted faucet for integration behind the mirror

- Drastically reduces water consumption
- No physical contact. Helps to protect users against cross contamination
- Sensor settings adjustable by remote control
- Easy installation behind the mirror
- Matching IR operated soap dispenser

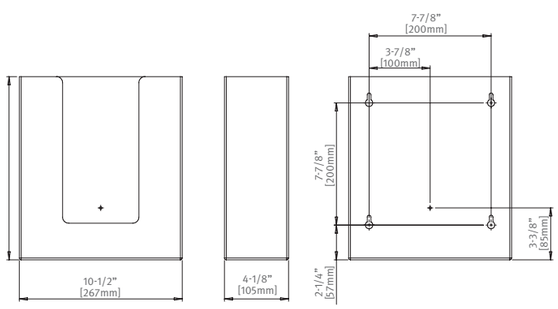


- 280310 **BTM B,** Battery box for 6 x 1.5V AA batteries
- 280300 **BTM E,** 9V transformer

BTM PAPER TOWEL HOLDER

- 316 Stainless steel
- For integration behind the mirror as part of the SWA electronic wall mounted system
- Easy installation
- Saves space and functional solution that accommodates standard paper towels from your favorite brands (paper towels not included)

- 03300148 **PAPER TOWEL HOLDER**



BTM SOAP DISPENSER

Touch-free electronic soap dispenser for integration behind the mirror

- Drastically reduces soap consumption
- No physical contact. Helps to protect users against cross contamination
- Peristaltic pump. The soap is driven inside the soap tube without contact with the pump, preventing contamination and back flow
- Accurate soap dosage
- To be used with non-proprietary soap for maximum savings
- Easy to install and refill
- Matching IR operated faucet

SOAP & WATER REMOTE CONTROL

In addition to the possibility to change settings at liquid or foam soap dispensers, this remote control allows to change settings at Stern matching touch free faucets. The following functions and settings can be changed:

- Sensor range
- Soap quantity in foam Soap Dispensers
- Entrance to the self-adjusting mode in wall mounted faucets
- Soap tank refill
- Temporary shut off
- Air quantity in foam soap dispensers
- Reset to factory settings
- Liquid Soap Quantity 1 - 4

Code Number: 07100014

LIQUID SOAP DISPENSERS
REMOTE CONTROL

Adjustable settings:
- Soap dosage
- Temporary shutoff function
- Soap tank refill
- Reset to factory settings

Code Number: 07100008

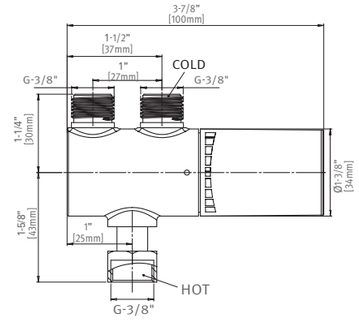
FOAM SOAP DISPENSERS
REMOTE CONTROL

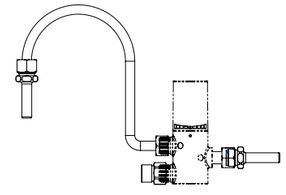
Adjustable settings:
- Soap dosage
- Air quantity
- Temporary shutoff function
- Soap tank refill
- Reset to factory settings

Code Number: 07100009

UNDERBASIN TMV
THERMOSTATIC MIXING VALVE

Advantages:
- Easy installation, connects directly to angle valves under the basin
- Thermostatic control for optimum temperature
- Can connect up to 4 faucets simultaneously
- Includes hot water stop function to prevent scalding
- Built-in filters to prevent dirt entering the system
- Back check valves prevent hot water entering cold water inlet





connection kit

UNDERBASIN TMV

G 3/8" inlet
- 07200069 **UNDERBASIN TMV,** (with connection kit) 1 unit
- 07291055 **UNDERBASIN TMV** to DPIB Kit

NEW!

PROPRIETARY SOAP ADAPTOR KITS

Just choose the adaptor that fits your soap container and fit it to the opening of your choice of soap container. Insert the pipe into the hole in the cap, attach the quick connector to the pipe, and voilà! Your Stern soap dispenser is ready to use your selected soap.

Small: 30mm-38mm

Big: 45mm-59mm

Kit contains:

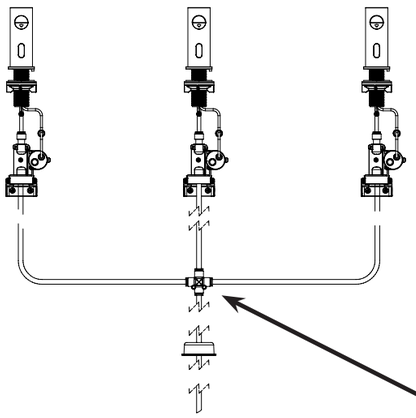
Adaptor

Quick connector

2-3 way Quick connector (Optional)

Pipe cutter

Pipe x 1



Option to connect up to 3 soap dispensers

DRAWING	PRODUCT NAME	DESCRIPTION	PART NUMBER
	2L UNDERBASIN TANK CONVERSION KIT	Includes: 2L soap container, breathe pipe, rubber seals and mounting support. To be used with Stern soap dispenser models.	07247011
	SMALL PROPRIETARY SOAP ADAPTOR	Includes: small elastic cover adaptor for use with proprietary individual soap containers. Soap container opening outer min/max diameters including thread: 30mm-38mm	07270294
	SMALL PROPRIETARY SOAP ADAPTOR FOR MF	Includes: small elastic cover adaptor for use with proprietary soap containers. For multifeed up to 3 products. Soap container opening outer min/max diameters including thread: 30mm-38mm	07270295
	BIG PROPRIETARY SOAP ADAPTOR	Includes: big elastic cover adaptor for use with proprietary individual soap containers. Soap container opening outer min/max diameters including thread: 45mm-59mm	07270296
	BIG PROPRIETARY SOAP ADAPTOR FOR MF	Includes: big elastic cover adaptor for use with proprietary soap containers. For multifeed up to 3 products. Soap container opening outer min/max diameters including thread: 45mm-59mm	07270297

COVER PLATE KIT

Offers a solution for deck mounted faucets to cover unused mounting holes. 28 mm / 4" deck plate kit.

- One hole cover plate, for single hole mount faucets.
- Covers 28 mm diamter / 4" mounting holes
- Complete kit with gasket and screw
